Class diagram

TrickGroup

id: int
name: string

+ __toString()

User

id: int
username: string
email: string
avatar: string
password: string
roles: array
reset_token: string
plainPassword: string

+ __construct()
+ getRoles()
+ setRoles(array $roles)
+ getSalt()
+ eraseCredentials()

Trick

id: int
title: string
content: text
slug: string
#date: datetime
user_id: int
trickgroup_id: int

+ __construct()

Image

id: int
url: string
file: File
trick_id: int

+ __toString()

Chat

id: int
message: string
date: datetime
trick_id: int
user_id: int

+ __construct()
+ __toString()

Video

id: int
type: string
identif: string
date: datetime
trick_id: int
